

Scenario 1: Approach and Traverse Mid-Road Crosswalk with Pedestrian (2nd modeling attempt)

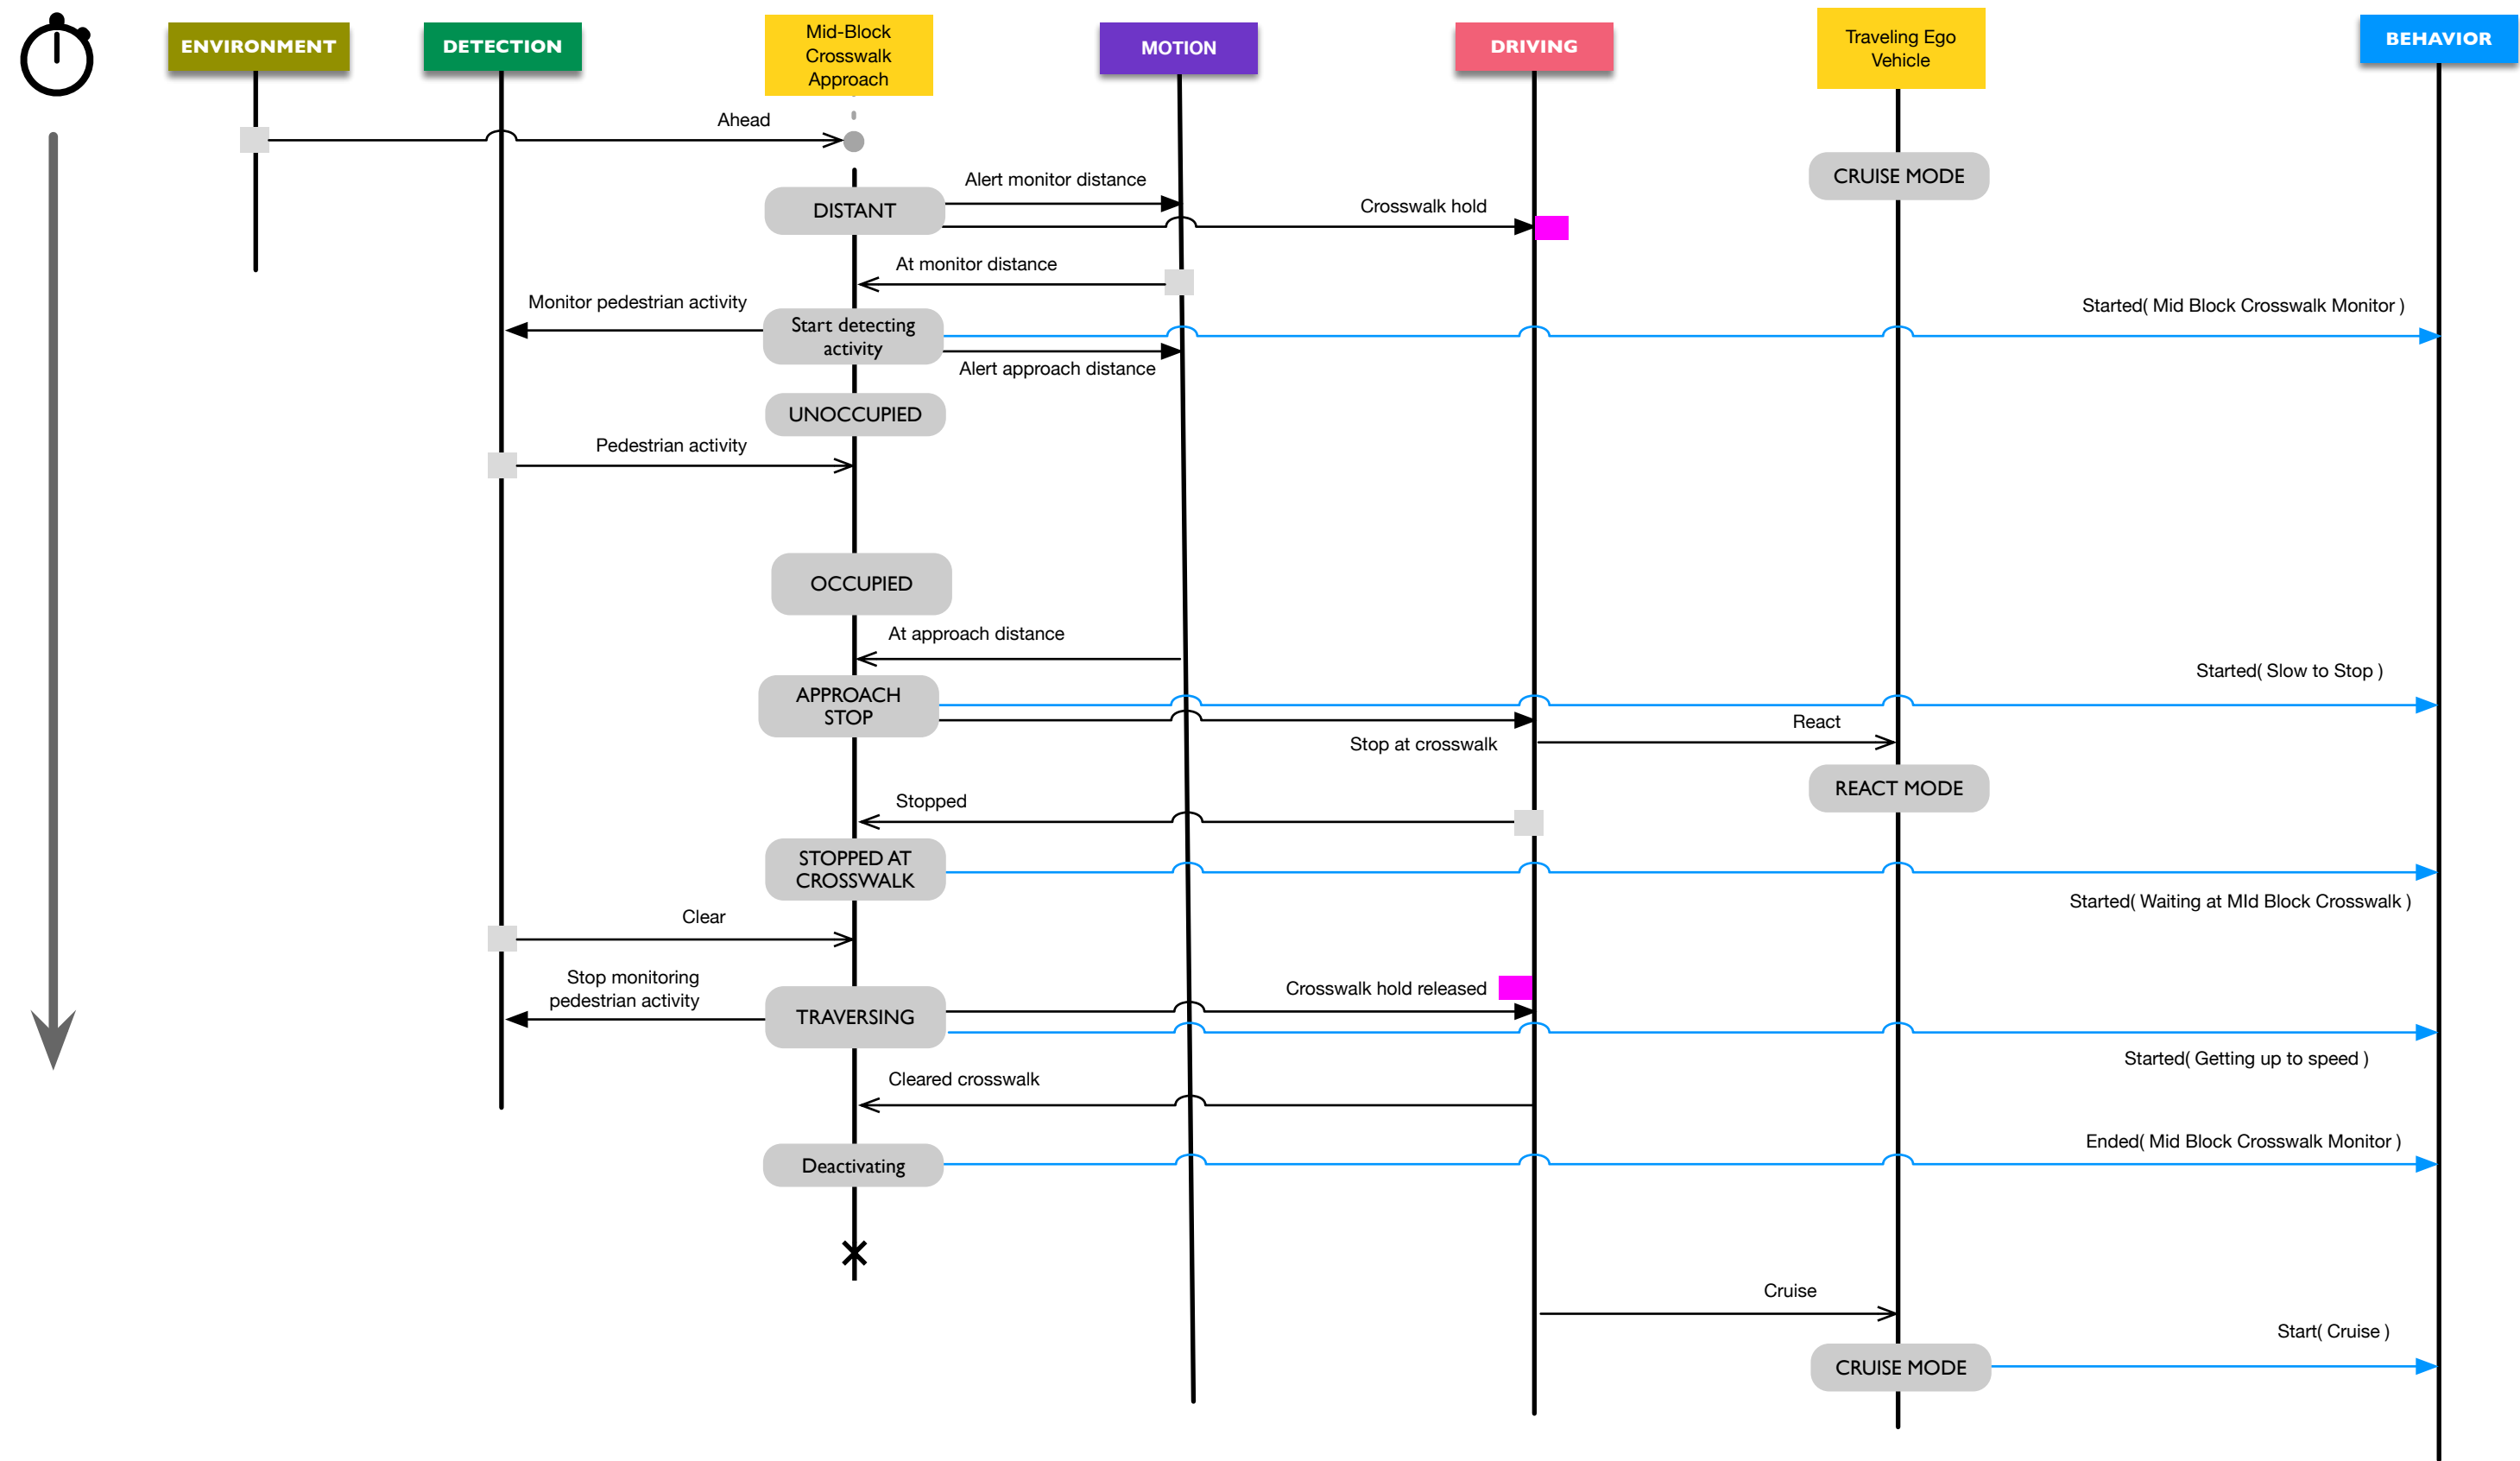

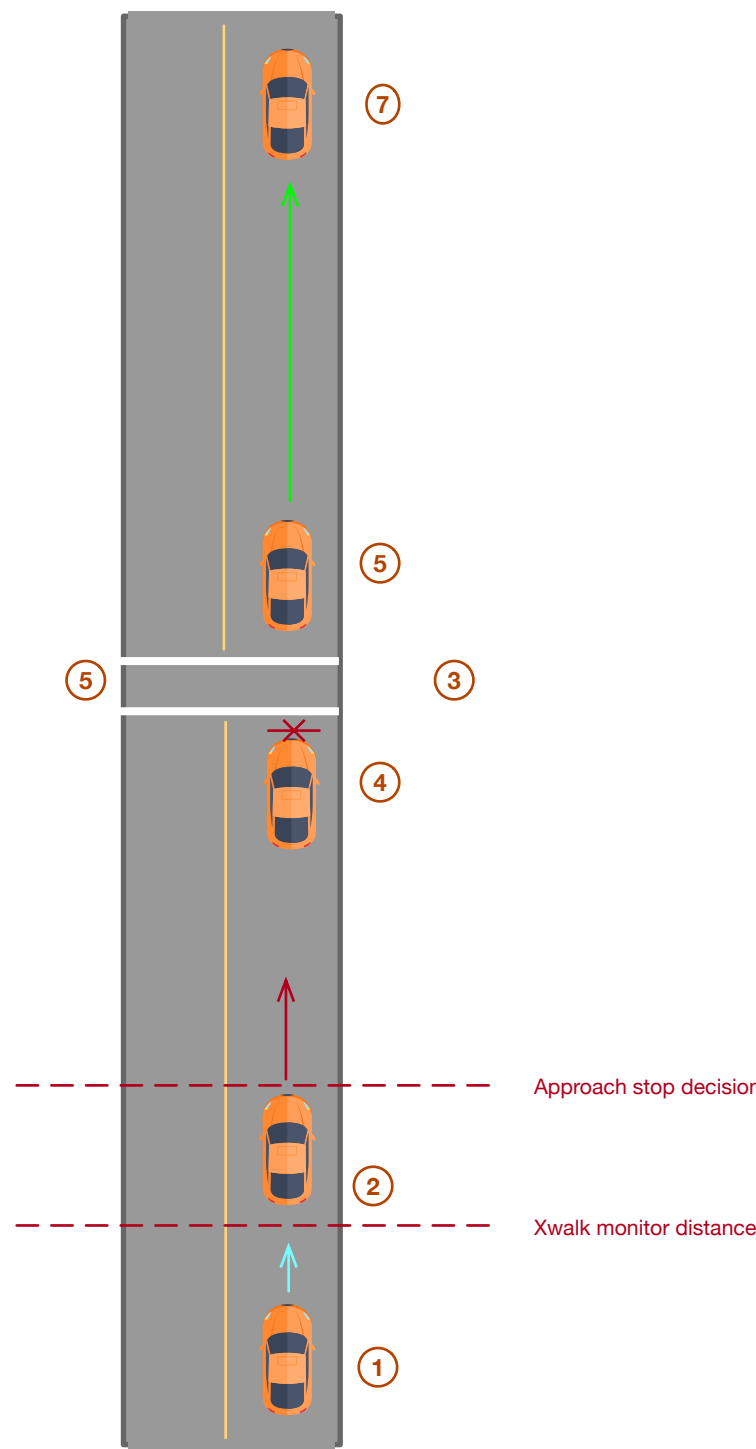

- Interesting things happening in this scenario:
- 1 EV is moving at or near speed limit (CRUISE)
 - 2 EV begins monitoring upcoming Mid Black Crosswalk for activity
 - 3 Pedestrian observed ready to cross, slowing down to stop
 - 4 Stopped waiting for crossing
 - 5 Pedestrian clear and resuming
 - 6 Crosswalk cleared
 - 7 EV is moving at or near speed limit (CRUISE)
